

Recession Seminar for Business Owners

Don't let the economy crash your business!

As a business owner, are you wondering what to do next? Are you questioning what to think, who to believe or if you should:

- Cut back on expenses?
 - What do I cut?
 - Do I cut employees?
 - Do I cut marketing?
- What will happen next?
- How am I going to make payments?
- Crash and burn?
- Quit?

Learn how to drive your business safely through this economy.

During this seminar, business owners will:

- Discuss how the economy got to where it is today
- Have a frank discussion about what is next for business
- Talk about survivors and non-survivors
- Gain 16 "driving lessons" to implement in your business
- Leave knowing the next steps they should take to help their business succeed

This seminar will be facilitated by Duane Hoversten, a Small Business Management instructor/consultant and business owner. During the session, he will share the secrets he has learned from 15 years of teaching and consulting with businesses and 25 years of experience in his own business ventures.
